

Electives in the Philosophy and Economics MA-Program:

For your electives of the P&E MA program, you can pick courses/modules listed under the link below. If a course/module is listed, please double check on cmlife, whether a link to our electives section already exists (click on the course in cmlife and choose content). If this is the case, there is nothing else you have to do.

If the selected course/module is not listed, please follow the subsequent steps.

- 1) Check whether the course/module you want to select is a Master course that gives 6 ECTS.
(Note that BA courses/modules that are also open for MA students do not count. It must be a true MA course listed in some Examination documents of existing MA programs. You can check whether a course is offered at the BA or MA level in cmlife!)
- 2) If 1) is fulfilled, please talk to the lecturer, whether he/she is willing to accept P&E students. (This needs not be the case if certain prerequisites are needed.)
- 3) If 1) and 2) are fulfilled, please contact Claudia Ficht (claudia.ficht@uni-bayreuth.de) with a link to a webpage providing relevant information for the course and forward the email confirming acceptance of P&E-students as participants of the course.

Please note that we can only handle cases for which the respect requests have been sent to Claudia Ficht by the end of the first lecture week in the respective term (mid October in the winter semester; mid/end of April in the summer semester). We will only make decisions on cases, for which **all** relevant information is sent to us. There will be no exceptions.
